

- Spatiha is a software solution and web design company based in Coimbatore, India. We provide best quality software solutions along with web design, web programming, web hosting and search engine optimization services globally.
- We are a global IT services and consultancy company. Our expertise lies in providing technology solutions for business problems based on three key competencies: Business Information Management, Web development and Business Application development . We specialize in Business Application development that brings forth strategic business insights for our client.
- As a multi-faceted, multi-dimensional specialist offering strategic consulting, products, business solutions and services in Business Management, we bring some unique values and processes to the table. With some unique tools and processes, we bring the best in class IT practices into each of our offerings.
- By creating highly professional W3C standard compliant and load-time optimized websites at extremely affordable prices, we leave our competition far behind in terms of value for money. We pride ourselves on providing a professional and reliable service in all aspects of business. We look over our clients and rewarded through consistent recommendations. We specialize in keeping costs down while still providing a quality product and service.
- Our passion for technology and our business acumen ensures that our client engagements meet both the business and technology expectations and are delivered on-time; within budget, with the highest quality output.
- Our services give customers the power to dramatically change and improve their overall performance. We bring together expert people, deep process knowledge and advanced technologies to help customers from a wide range of industries respond to the challenges of today's economy.

■ Customer Service Philosophy

At Spatiha, we believe, we are providers of business solutions built on technical expertise and industry knowledge that add great value to our client's business. We believe in lasting relationships rather than one-off project association. We are committed to continuously improving the performance, functionality and cost-effectiveness of our services, through enhancing our existing knowledge with new and innovative technical solutions. We don't succeed unless our clients do. We are ready to serve you.
